

IN THE DRAWINGS

Figure 3 was objected to because reference numerals 33 and 34 both point to the same component. Applicant has enclosed herewith a replacement sheet of drawings in which this error has been corrected. More particularly, the original Fig. 3 had reference numeral 34 in two locations, i.e., on the left and right
5 side of the figure. In the replacement sheet, Applicant has deleted the reference numeral 34 that appeared on the right side of the original Figure 3.

Applicant submits that the drawings are now in allowable form, and respectfully requests withdrawal of the objection.
